Macworld 1988 Annual Index

by Erfert Fenton

This index covers the 12 issues of *Macworld* published during 1988. It lists most products alphabetically as well as under appropriate subject headings. For example, StuffIt appears under its own name and under Data Compression, File Compression, and Utilities. Boldface page numbers indicate a major reference, for example, an item that is being reviewed or featured.

A

AAIS Prolog, ***Oct 132***
Aatrix Payroll, *Feb 307, Jul 262,* ***Sep 167***

These two drives are identical.

But there are five differences.

Mathematics Made Easy!

Milo is the first math processor that combines mathematical calculations with graphing and word-processing capabilities. Milo effortlessly describes a problem, solves it, and graphs your solution. Our WYSIWYG interface allows you to easily manipulate expressions with a click of the mouse. No programming language required! Easily move your results to any word processor or desktop publishing application. Milo is the essential tool for all users of mathematics.

Introductory Retail Price $249.

Milo™

The Math Processor for the Macintosh®

PARACOMP

123 Townsend Street, Suite 310
San Francisco, CA 94107 (415) 543-3848

Works on all Macintoshes with at least 512K RAM.

©1988 Paracomp, Inc. Milo is a trademark of Paracomp, Inc. Macintosh is a registered trademark of Apple Computer, Inc.

ACCOUNTING

When you do accounting you'll want something more than database adaptations, spreadsheet templates or converted MS-DOS programs. *All three of our fine accounting programs were created especially for the Macintosh!*

MultiLedger™
Now you can get General Ledger, Accounts Receivable, Accounts Payable, and Inventory tracking together in one completely integrated program ... at a fraction of the cost of buying individual G/L, A/R, A/P, and Inventory modules.

Payroll
This easy-to-learn, easy-to-use payroll system is ideal for most organizations or businesses with 1 to 1000 employees. Use it as a stand-alone program or integrate it with either of our ledger programs.

Cash Ledger
This is a full-featured accounting system for businesses or organizations using cash-basis reporting. It can also be used by accountants or other professionals who require "write-up" capability.

WE COULDN'T HAVE SAID IT BETTER

"If your preference is for lean, no frills software you may find that this program wins out over more elaborately packaged rivals."
Macintosh Today

"This program is so good that it's the first one you test. I can almost guarantee you it will be the only one you test."
Computer Output column

"My favorite all-around accounting program is CheckMark Soft ware's MultiLedger Payroll set. It was the simplest and most logical program I examined that provided a reasonably full set of accounting capabilities. Its price-performance ratio represents an excellent value."
Macworld

MultiLedger – $395.00
Payroll – $295.00
Cash Ledger – $195.00

Full-functioning demo disks available
Dealer inquiries welcome

COMMUNICATIONS SOFT
THE INTELLIGENCE

It's gotten raves from just about every software reviewer. It's powerful, reliable and easy to use.

It's Smartcom II® from Hayes for the Apple® Macintosh.™ Designed to take full advantage of the Mac's power and ease of use as well as of your Hayes modem. And if you're a Macintosh user, you ought to know about it.

Eight icons control most of the program functions. Like getting on-line, transmitting and receiving a

For your nearest Hayes Advanced Systems Dealer, call 800-635-1225.

WARE THAT APPRECIATES OF YOUR COMPUTER.

file, or accessing a communications service.

There's also an Autopilot for automatic and unattended operations at night, when rates are lower. Not to mention the support for creative functions such as remote interactive graphics and AppleTalk® network printing to LaserWriter® or ImageWriter.®

Now that you know this about Smartcom II for the Macintosh, do the next intelligent thing. Buy it.

Hayes.

Re-ink Your Printer Ribbon for Less Than 5 Cents

Special Offer: FREE MOUSEPAD with any order >60.00

MacInker™, the automatic ribbon re-inker. The Imagewriter MacInker (**mod 234IM**) re-inks Imagewriter I/II black & single color cartridges. The Universal MacInker also re-inks hundreds of different cartridge types (**including the Imagewriter LQ**) with suitable adaptors. Extra dark, dot matrix, lubricated ink yields a truly better than new print quality and helps extend print-head life. Average number of re-inkings/cartridge is 60-100. With the **Multicolor Adaptor (mod M422, $40.00)** your MacInker can re-ink the multicolor Imagewriter II cartridges. We have a full range of optional accessories, inks & cartridges: indelible ink, heat transfer etc. Colors: red, green, blue, yellow, purple, brown, orange, silver, gold. Ask for free catalog.

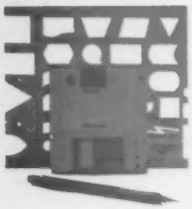
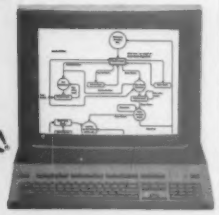
If you just need a drawing tool, use one of these.



If you need a design tool, use MetaDesign™



Ask About Our Demo Disk!

Use MetaDesign to quickly create and edit:
- Flow charts
- System models
- Technical documentation
- Graphic outlines
- and much more!

With MetaDesign you can:
- Build diagrams with hundreds of hierarchically linked pages
- Quickly edit, resize or realign objects and text – connected objects always stay connected
- Create text anywhere in a diagram, associate text with objects and connectors
- Create hypertext links
- Use our flow charting symbols, or create your own

Get MetaDesign and start spending your time designing, instead of redrawing.

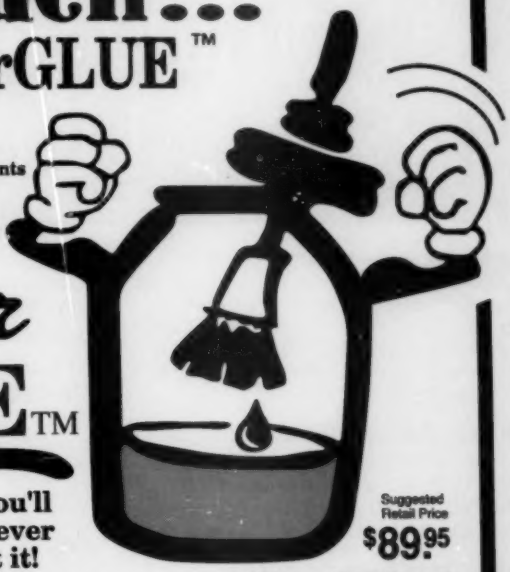
Don't Get Stuck...
...get SuperGLUE™

MacWEEK, Mar. '88
"SuperGlue's underlying concept is so fundamental that you'll wonder why its capabilities aren't an integral part of the Mac system... It operates simply and flawlessly - no other available product can replace it."

Macintosh Buyer's Guide, '88
"If you've ever wanted to look at a document or a drawing that was created in an application you didn't have you'll appreciate SuperGlue. SuperGlue has earned a permanent spot on our hard disk... If you do desktop publishing or electronic communications, this program is definitely worth adding to your library."

MACazine, Feb '88
"SuperGlue is ...an important business tool ... substitute fonts, and view, copy and print images without leaving your main application ...an indispensible utility for networking."

Print to Disk
Save Images - View Images
Extract Text - Substitute Fonts
Copy Selected Areas
Import / Export Formatted Documents Electronically



Super GLUE™

Once you use it you'll wonder how you ever got along without it!

Make the Most of Your Mac

With Detailed, In-Depth Information from Scott, Foresman and Company

Making Art on the Macintosh II
Michael Gosney and Linnea Dayton
Transform your Mac into an artist's brush and canvas in the click of a mouse! Loaded with insider tips, secrets and shortcuts, this entertaining and highly informative book will help you create the art you want using the Mac II's amazing electronic art and design capabilities.
Softbound, 320 pages, $22.95 ISBN 38159-5

The Macintosh II Reference Guide
Mark D. Veljkov
Developed for new and prospective Mac II owners, this current and comprehensive guide will help you unleash the mighty Mac's potential with authoritative advice on choosing and using hardware and software add-ons, upgrading and enhancing your system, and much more.
Softbound, 352 pages, $21.95 ISBN 38227-3

PageMaker: Desktop Publishing on the Macintosh
Kevin Strehlo
Make the most of Aldus' PageMaker 3.0 software and your Mac. This illustrated book includes a comprehensive overview of PageMaker tools, image scanning and bit-map graphics, plus design tips that will help you bridge the gap between computing and publishing.
Softbound, 320 pages, $21.95 ISBN 18764-0

4th Dimension: A Complete Guide to Database Development
Tim Knight
Perfect for beginning and intermediate level developers, this book shows you how to design a database and write customized applications that take full advantage of the graphics, networking and color of 4th Dimension, Acius' powerful relational database for the Macintosh.
Softbound, 480 pages, $21.95 ISBN 38172-2

The portable keyboard for Macintosh computers.

The Cambridge Z88 features:

- *PCLink imports/exports Wordstar, Lotus 1-2-3, Excell and ASCII files*
- *No disks, or disk operating system*
- *8.25" x 11.5" x .875", weighs less than 2 lbs., goes anywhere*
- *160K of built-in memory, expanding to over 1.5 megabytes*
- *Powerful applications software*
- *QWERTY keyboard with silent travel keys*
- *Operates on 4 AA batteries for 20 hours*
- *Solid state Memory Cartridges™ for added memory*
- *Permanent storage of contents on EPROM Memory Cartridges™*
- *Supertwist LCD display, 8 lines x 106 columns*

The Cambridge Z88 is a versatile, hardworking computer that doubles as a portable keyboard for Lotus 1-2-3, Wordstar, WordPerfect, and Excell work files.

Work you once had to leave behind on your desk—or inside a PC—you can now take with you. Simply transfer files from your desktop or laptop PC to the Cambridge Z88 with the Z88 PCLink® or MacLink. Then take the Z88 down the hall to a meeting, or on your next trip.

When you return, update the files on your PC. It's that easy.

The Z88 imports/exports work files from both IBM and Macintosh

The Cambridge Z88 MacPac

$799.00

Includes Z88, MacLink, Shipping, one year limited warranty, users manual, and lightweight carry case.

- **Parallel printer cable $72.00**
- **32K EPROM $49.00**
- **32K RAM $49.00**
- **Attache case $28.00**

Add $3.00 per item for shipping

Other Z88 accessories, including a modem, and complete tech support is available upon request.

To order, call 1-800-366-0088

MacFortran™ 77

World's Most Popular FORTRAN 77 for Mac

MacFortran V2.4 — New
Full **ANSI 77** compiler with NEW, powerful Mac-style interface. Full screen **Debugger**, no limit on code or data size. Full **Mac toolbox** support, Multi-Finder, create clickable applications. $295 NCP.

MacFortran/020 V2.4 — New
Designed for porting mainframe programs to/from Macintosh. All above features plus: **68020/68030 CPU** and **68881/68882 FPU** code generators, **VAX** and **FORTRAN 8X** extensions, **COMPLEX *16, MIL-STD 1753** specs. $495 NCP.

MacFortran/AUX V1.0
New RAT technology.
RAT (RISC Architecture Technology) compiler provides full **ANSI 77, IEEE P754, MIL-STD-1753** also, **VAX/ VMS** and **8X** extensions. **COMPLEX*16, NAMELIST** and more. Mac and command line interface. **Full toolbox** support. $495 NCP.

MacFortran/MPW
Based on RAT technology (see above) fully supports **SANE,** MPW debugger, interlanguage calling with **MPW C** and **PASCAL.** Direct ROM calls, requires **MPW 3.0** and **68020/68881** machines.

MacFortran/88
Mac hosted **FORTRAN RAT** complier which generates assembly language for **Motorola's 88000** 17 MIP RISC CPU. Runs as an MPW tool.

Updates (Prices do not include freight)
MacFortran —> MacFortran 2.4 $50.
MacFortran —> /020 $100 credit.

We need someone with the confidence of a surgeon, the dedication of a marathoner and the courage of an explorer.

We need someone to fill a unique job opening.

Someone to spend two years in another country. To live and work in another culture. To learn a new language and acquire new skills.

We need someone who wants to help improve other people's lives. Who's anxious to build lasting friendships. To gain memories and experience that will last a lifetime. And a sense of fulfillment few jobs can match.

We need a Peace Corps volunteer. Interested? The first step is easy. Call 1-800-424-8580, Ext. 93.

Peace Corps.

The toughest job you'll ever love.

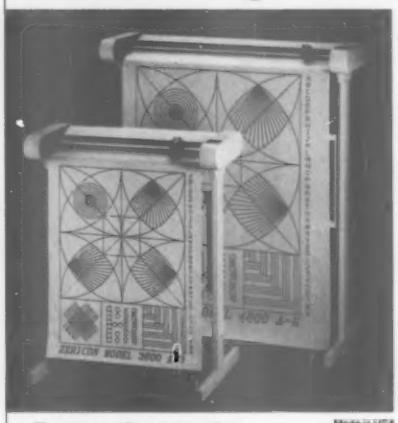
Circle 465 on reader service card

Affordable Large Format Plotting



C–D
$1695
(Sugg. ret. $2295)

A–D
$2295
(Sugg. ret. $2695)

A–E
$2695
(Sugg. ret. $2995)

Made in USA

Features that say value...

Economical: $1,000 less than other large format plotters.

Compatible: Operates with all popular CAD software supporting DM/PL.™

Multiple Media Sizes as small as 8½" x 11" or as large as 36" x 48" eliminates the need for a second plotter.

Practical speed you can really use: 10" per second assures good drawing throughput while optimizing the speed at which most plotter pens can draw without skipping.

Repeatability and Resolution: .004 assures quality suitable for the most demanding applications including PCB artwork.

Vacuum Paper Hold Down guarantees perfect registration.

CALL NOW AND WE'LL SEND YOU A FREE SAMPLE PLOT.
